

dennis brennan engagement

Brennan's strongest and most accessible work yet. "Engagement" comes at you from two different places - the intimacy of the recording studio and the wild abandon of live performance. And nothing is held back. Get on it, join in, ENGAGE!

"His latest album, the aptly titled *Engagement*, is a perfect snapshot of Brennan at work. Divided equally into studio and live tracks, the diversity is stunning as he takes listeners on a journey that comes from the gut."
